Nilay Srivastava

Aspiring MERN Stack Developer | B.Tech+M.Tech Student at
IIT Gwalior | Expertise in DSA, Java, Python | Open to Work and
Collaborations
Gwalior, Madhya Pradesh, India

Summary

Hello, I'm Nilay Srivastava, a 2nd year student at IIT Gwalior,
pursuing my integrated B.Tech+M.Tech degree in Information
Technology.

 As an aspiring MERN stack developer, I enjoy crafting dynamic and
interactive web applications. I have a solid foundation in front-end
technologies like React, and I'm proficient in back-end development
using Node.js, Express, and MongoDB. Building efficient and user-
friendly websites is my passion!

Additionally, I have a strong grasp of Data Structures and Algorithms
(DSA), which allows me to solve complex problems efficiently. I also
have experience with languages like Java and Python, enabling me
to adapt to different project requirements.

Constantly seeking new challenges and opportunities to expand
my skill set, I am eager to collaborate with like-minded professionals
and contribute to innovative projects. I believe in lifelong learning and
staying up-to-date with the latest trends in the tech industry.

Outside of my academic pursuits, I actively participate in coding
competitions and hackathons, where I enjoy collaborating with
diverse teams and brainstorming creative solutions. I'm always ready
to dive into new projects and explore emerging technologies.

If you're looking for a MERN stack developer or need assistance with
DSA-related projects, feel free to reach out! I'm open to work and
excited about exploring new opportunities in these areas. You can
contact me at nilay2103@gmail.com, and I'll be happy to discuss
how we can collaborate to create innovative solutions. Let's connect
and shape the future of technology together!
